Summary

Developed an Interactive Recipe Finder Web application with a focus on responsive design and smooth user experience. Skilled in **HTML5, CSS3, JavaScript**, and modern UI frameworks like **Tailwind CSS** and **Bootstrap** for front-end development. Built a clean and dynamic interface enabling users to search and filter recipes efficiently. Seeking to leverage **UI/UX design and web development** skills to build scalable and user-centric web solutions.

Technical Skills

- **Programming Languages**:- C, Python, Java, SQL.
- **Technologies** :- HTML5, CSS3, JavaScript Essential.
- **Database Management**:- MySQL, MongoDB, PostgreSQL , Sqlite3.
- **Tools**:- MS-Excel, MS-PowerPoint, Power BI, Tailwind CSS, Bootstrap 5..

Projects

Interactive Recipe-Finder

Oct-2025 to Oct-2025

Technologies :- HTML5, CSS3, JavaScript Essential 1, Tailwind CSS, Bootstrap 5

Description:- Developed an interactive and responsive web application that allows users to search and explore various recipes based on ingredients and cuisine preferences. Implemented dynamic UI components using JavaScript and styled the interface with **Tailwind CSS** and **Bootstrap 5** for a modern, clean look. Focused on enhancing user engagement through smooth navigation and optimized page responsiveness across devices.

Result:-

- Delivered an intuitive and visually appealing recipe search platform, improving user accessibility and Interaction..
